

## Clays and Clay Minerals

---

Volume 64 Number 2, 2016

### Contents

Synthesis of zeolites from a low-quality Colombian kaolin <i>Mónica A. Villaquirán-Cacedo, Ruby M. de Gutiérrez, Marisol Gordillo, and Nidia C. Gallego</i>	75
Thermal constraints on clay growth in fault gouge and their relationship with fault-zone evolution and hydrothermal alteration: case study of gouges in the Kojaku Granite, central Japan <i>Masakazu Niwa, Koji Shimada, Hajimu Tamura, Kenji Shibata, Shigeru Sueoka, Ken-ichi Yasue, Tsuneari Ishimaru, and Koji Umeda</i>	86
Radiation-damage resistance in phyllosilicate minerals from first principles and implications for radiocesium and strontium retention in soils <i>Michel Sassi, Kevin M. Rosso, Masahiko Okumura, and Masahiko Machida</i>	108
Review of clay-drug hybrid materials for biomedical applications: administration routes <i>Myung Hun Kim, Goeun Choi, Ahmed Elzatahry, Ajayan Vinu, Young Bin Choy, and Jin-Ho Choy</i>	115
High-resolution transmission electron microscopy (HRTEM) study of stacking irregularity in Fe-rich chlorite from selected hydrothermal ore deposits <i>Sayako Inoué and Toshihiro Kogure</i>	131
Mineralogy, geochemistry, and genesis of sepiolite and palygorskite in Neogene lacustrine sediments Eskişehir province, west central Anatolia, Turkey <i>Selahattin Kadir, Hülya Erkoyun, Muhsin Eren, Jennifer Huggett, and Nergis Önalgil</i>	145
Reflectance spectroscopy for organic detection and quantification in clay-bearing samples: Effects of albedo, clay type, and water content <i>Hannah H. Kaplan and Ralph E. Milliken</i>	167
In memoriam	185
Forthcoming papers	187
