

Contents

Examining structural and related spectral change in Mars-relevant phyllosilicates after experimental impacts between 10–40 GPa <i>Lonia R. Friedlander, Timothy D. Glotch, Brian L. Phillips, John S. Vaughn, and Joseph R. Michalski</i>	189
The influence of high-concentration Na hexametaphosphate dispersant on the rheological behavior of aqueous kaolin dispersions <i>Francisco-José Rubio-Hernández, Nicolás-Marcelo Páez-Flor, Ana-Isabel Gómez-Merino, Francisco-José Sánchez-Luque, Reinaldo Delgado-García, and Leonardo Goyos-Pérez</i>	210
Transformation of adsorbed aflatoxin B ₁ on smectite at elevated temperatures <i>Asma Sadiá, Linda Dykes, and Youjun Deng</i>	220
Influence of aqueous Si and Fe speciation on tetrahedral Fe(III) substitutions in nontronites: A clay synthesis approach <i>Fabien Baron, Sabine Petit, Emmanuel Tertre, and Alain Decarreau</i>	230
Differentiating styles of alteration within kaolin-alunite hydrothermal deposits of Çanakkale, NW Turkey <i>Hatice Ünal Ercan, Ö. Işık Ece, Paul A. Schroeder, and Zekiye Karacık</i>	245
Modified method for bentonite purification and characterization; a case study using bentonite from Tsunagi mine, Niigata, Japan <i>Takayuki Hayakawa, Makoto Minase, Ken-ichi Fujita, and Makoto Ogawa</i>	275
Coprecipitation of aluminum goethite and amorphous Al-hydroxy-sulfate using urea and characterization of the thermal decomposition products <i>Geraldo Magela da Costa and Eddy De Grave</i>	283
Competitive removal of malachite green and rhodamine B using clinoptilolite in a two-dye system <i>Evrin Baran and Bilal Acemioğlu</i>	299
Modeling powder X-ray diffraction patterns of The Clay Minerals Society kaolinite standards: KGa-1, KGa-1b, and KGa-2 <i>B.A. Sakharov, V.A. Drits, D.K. McCarty, and G.M. Walker</i>	314
Forthcoming papers	334
